Product Summary

Think & Learn Code-a-pillar Twist™ lets kids discover the fun of coding as they

Additional Information

Grade Level: PreK-K

Students Per Device: 1 - 2

Computer Science Standard(s):

Washington State CS Standards: Algorithms and Programming

The Think & Learn Code-a-pillar Twist™ has more than 1,000 possible coding combinations. Preschoolers can twist the dials to create a sequence and send their pal along a programmed path. They can even add lights and sounds! A great tool to practice problem solving, planning, and sequencing through play.
